THE JOINT CHIEFS OF STAFF

WASHINGTON 25, D. C.

Joint Topographical Subcommittee

7 June 1946

MEMORANDUM FOR THE SECRETARY, JOINT INTELLIGENCE COMMITTEE

Subject: Estimated Cost for Reproducing JANIS

1. The cost of reproducing Joint Army-Navy Intelligence Studies (JANIS) for the fiscal year of 1947 is estimated at \$200,000 and is based on the currently contemplated schedule of six (6) studies for the year, printing 1,500 copies of each study. This estimate is also based on (1) using offset reproduction of text portions from IBM machines at a cost of \$125,000, and (2) color reproduction of maps at \$75,000. Present method of reproduction of textual material (letter press printing) would be considerably higher.

2. The estimate of \$75,000 for map reproduction represents a cost previously absorbed by the Army Map Service. No allowance has been made in the proposed 1947 AMS budget for the reproduction of JANIS maps. Under present conditions AMS can continue to handle the reproduction but should not be required to absorb the cost thereof.

3. It is recommended that the cost be prorated as follows: Army 60%, Navy 40%. This is based on the approximate ratio of copies used by the two services.

4. It is recommended that the Navy continue to place the contract for the printing and binding of JANIS as it has in the past.

5. This memorandum supersedes JTS memorandum of 13 May 1946, same subject.
